

SRT NEWS

Global financial turmoil, panic, confusion and chaos everywhere. Banks crashing taking with them our hard-earned cash. Not a pretty scenario but one that has been stirred up into epic proportions by the media, exacerbating the fear of losing our homes, savings and pensions. The media thrive on fear and people are buying into it big time. It sells newspapers and it helps fuel situations such as the one we are experiencing now.

This turbulence has long been forecast by many who channel beings of Light. It is seen as a grand shake-up of the businesspeople who have been "looking after" our money and whose greed has created this situation. Out of it will come a better system, one that serves us all rather than the few. It's going to take some time to settle but we must trust that all is in Divine Order and that our faith will see us through. Life is a never-ending circle and the money markets are subject to cycles too. They have their ups and downs and during this down phase we must all hold on tight to the knowledge that they will go back up and that financial stability will return.

As we head towards the ascension process, we are having to shed many of the old ways. It is a tough process but we have to leave behind the things that are of lower density as we rise up to encompass the new light energies that are beginning to fill planet Earth. Hang on tight during this bumpy ride!

Love and blessings
Linda Turner
